Professional Summary

Dean's Lister and Bachelor of Science in Information Technology graduate with experience in UI/UX design, full-stack development, technical support, and business process improvement. Skilled in designing user-centered digital experiences using Figma and developing web and mobile applications using Flutter, PHP, SQL, and REST APIs. Experienced in conducting user research, usability testing, workflow optimization, and technical troubleshooting. Passionate about creating intuitive software solutions that improve user experience and operational efficiency.

Technical Skills

UI/UX Design: Figma, Wireframing, Prototyping, User Research, Usability Testing
Programming & Development: Flutter, PHP, SQL, REST API Integration, Web & Mobile Development
Database & Systems: MySQL, Database Design, System Analysis & Design
Tools & Platforms: Git, GitHub, Salesforce CRM, Google Workspace, Google Admin Console, Laragon
Technical Support: Troubleshooting, User Support, System Maintenance, Documentation

Projects

CareerPathLink – Career Coaching Module Aug 2024 - May 2025
UI/UX Designer & Full-Stack Developer

- Designed and developed a career coaching and appointment scheduling platform for university students and staff.
- Conducted user research and usability testing to identify user needs and improve system functionality.
- Created wireframes, user flows, and interactive prototypes using Figma.
- Developed the frontend using Flutter and backend services using PHP and MySQL.
- Implemented appointment scheduling, notification systems, and user management features.
- Collaborated with stakeholders to ensure alignment with organizational requirements.

ZUS Custom – Operational Flow Optimization Aug 2023 - Jun 2024
UI/UX Designer

- Analyzed existing operational workflows and identified process inefficiencies.
- Designed improved user journeys and operational flows using user-centered design principles.
- Developed interactive prototypes to validate proposed solutions.
- Conducted testing sessions and gathered feedback to improve usability and workflow effectiveness.

Professional Experience

Laboratory Custodian / Operations & Technical Support Aug 2025 - Present
University of Nueva Caceres

- Supervise and coordinate student assistants, ensuring efficient laboratory operations and task completion.
- Provide technical support to students and staff by resolving Wi-Fi connectivity, account access, and computer-related concerns.
- Monitor and maintain computer laboratory equipment to ensure functionality and readiness for academic use.
- Prepare monthly laboratory status reports and maintenance documentation to support operational planning.
- Assist in troubleshooting hardware and software issues, minimizing disruptions to laboratory services.
- Contribute to workflow improvements and resource management initiatives.

Salesforce Developer Intern Mar 2025 - May 2025
SmartBridge

- Completed hands-on training in Salesforce CRM and cloud-based technologies.
- Worked with enterprise business processes, workflow automation, and data management concepts.
- Applied Salesforce tools to improve business process efficiency and user experience.
- Collaborated in project-based activities involving CRM implementation and configuration.

Education

University of Nueva Caceres, Naga City, Camarines Sur

Bachelor of Science in Information Technology, Aug 2021 - Jun 2025

Class of 2025 Dean's Lister (GWA 1.36)

University of Nueva Caceres, Naga City, Camarines Sur

Accountancy Business and Management (ABM), Jun 2018 - Mar 2020

Certification

User Experience Design Fundamentals, Design Craft: Mastering UI/UX Fundamentals, Salesforce Virtual Internship Program, CCNA: Introduction to Networks, Cybersecurity & Threat Management (Cisco), AWS Academy Cloud Foundations, AWS Cloud Operations, AWS Cloud Developing, AWS Cloud Architecting, Agile Explorer

Soft Skills

Problem Solving, Team Collaboration, Leadership, Time Management, Critical Thinking

Language

English, Filipino
